PROFESSIONAL REMODELER

## A MATTER OF TIME

WHAT THE NEW LABOR  
LAWS MEAN FOR REMODELERS

**TOP 100**  
PRODUCTS

## 12] KITCHEN APPLIANCES

A full complement of modern kitchen necessities, including ranges, wall ovens, cooktops, microwave ovens, and dish-washers comprise the **LG Studio** collection. Every model shares a unified and distinctly modern appearance. Each product in the LG Studio lineup has been specifically designed and manufactured to be used as part of a total kitchen appliance package. **lghausys.com NO. 854**

## 13] KITCHEN WORKSTATION

Designed to allow prep, serving, cleanup, and entertaining to all happen in one place, indoors or outdoors, **The Galley** workstation is available in six sizes, with features that include colanders, cutting boards, bowls, and drain racks. The workstation features reversible sinks with side drains to maximize storage space. The Galley can also be special ordered in custom sizes. **galleycollection.com NO. 855**

## 14] KITCHEN MODULES

As an alternative to standard built-in cabinetry, **YesterTec** offers solutions that can conceal all of the typical kitchen appliances, so the kitchen blends into adjacent living spaces. Three lines are available; the Stealth Kitchen Module is shown. All feature a patented UL-listed technology that allows the hot appliances, such as ovens and cooktops, to be safely concealed from view when not in use. **yestertec.com NO. 856**

## LIGHTING

### 1] PENDANT FIXTURES

**Access Lighting's** Essence Collection offers a variety of choices of pendant fixtures in several sizes and shapes, from rounded to more angular, in a highly polished copper finish. The company plans to expand the collection to include a chrome finish and LED options. **accesslighting.com NO. 857**

### 2] LED SHOP LIGHT

The 122-watt **Big Ass** Shop LED light is constructed of a single piece of extruded aluminum for strength and a patented ribbed fin design to dissipate heat while protecting the LEDs and other electronics. Designed for home garages and workshops, the Shop LED delivers 13,000 lumens of ultra-bright light, lasts up to 150,000 hours, and comes with a 10-foot-long cord to reach the nearest outlet and two S-hooks for hanging from ceiling joists. A seven-year warranty is included. **bigassfans.com NO. 858**

### 3] LUMINAIRES

Two new lighting products from **ERCO** give façades and entrance areas greater emphasis. **Gecko** is an outdoor luminaire that combines the latest LED technology with maximum glare control in a minimalist design. **Visor + Lightmark** luminaires can illuminate pathways, open areas, and entrances with as little as a 6-watt load. **erco.com NO. 859**
