A NEW WAY TO ENTERTAIN

OWNER/DESIGNER RO WYMAN established Cabinetry Concepts & Surface Solutions in Lebanon, New Hampshire, after starting her own upscale home renovation and home-building company, so she knows what homeowners need from the ground up. She understands that style, function, and product quality must find common ground with a customer's budget to deliver a practical and cost-effective design solution.

### BUILT-INS RULE

Topping Ro's list of hot new products is The Galley workstation, available in several lengths and white or black resin or natural bamboo finishes. "Why settle for just a kitchen sink when you can have a super-functional, smart, and stylish workstation to prepare, serve, entertain, and clean up all in one convenient place?" asks Ro.

The Galley comes with a Culinary Kit containing cutting boards, colanders, and bowls, and extra accessories are available. ▶

The Dual-tier Condiment Serving Board, the Bottom Sink Divider, and the Upper-tier Garnish Board are just a few of the additional accessories available. Photos courtesy of The Galley ([thegalleysink.com](http://thegalleysink.com)).

## COUNTER CREATIONS & OPTIONS

**Above:** Dekton by Cosentino is a surface made of a mixture of inorganic materials, manufactured through a patented process that produces a superior indoor/outdoor surface that is UV, heat, impact, abrasion, stain, and scratch resistant with a 25-year warranty. Its wide range of colors and finishes is also available in large slabs. Photos courtesy of Cosentino.

AFTER

BEFORE

The goal for this remodel was to create a cohesive space to dine and entertain while visually connecting multiple spaces. The solution was to centralize the kitchen and take advantage of a new addition on the front of the house to enhance the kitchen's footprint. Guests can flow from the kitchen into the adjacent family room or into the dining room. Photos courtesy of Cabinetry Concepts & Surface Solutions.
